## The Avon Minnow

@TheAvonMinnow

I'm a vital link in the chalk stream ecosystem. These views are my own, not necessarily those of the shoal.

Entry into my  
juvenile fishing  
diary

10-12<sup>th</sup> August 1976

SALMON AND TROUT ASSOCIATION  
COURSE AT PACKINGTON.  
10<sup>TH</sup> - 12<sup>TH</sup> AUGUST 1976.  
We arrived at the country  
club around 3 o'clock, we then  
had a talk on casting by  
our instructor Mr Dick Swift.  
After having dinner we fished  
the evening rise I caught  
a 1 LB  $13\frac{3}{4}$  inches Rainbow  
and a home tied pheasant  
tail (brown glass).

The middle day (11<sup>TH</sup>) I  
caught another from one of  
the private lakes, it was  
a 7 inch perch taken on a  
muddler. In the afternoon we  
went to the 'hall' where we

ASHMERE, FELIX LANE, SHEPPERTON,  
SALMON+TROUT FISHING EVENING.

THURSDAY 6<sup>TH</sup> JUNE 1977

Arrived 6pm, overcast  
with rain in the air. Fished  
the small lake with a Sunb  
line and muddler Minnow -  
no good. Then tried pheasant  
tail (amber thorax) on a  
flouter. Heavy Heavy rain 10 min.

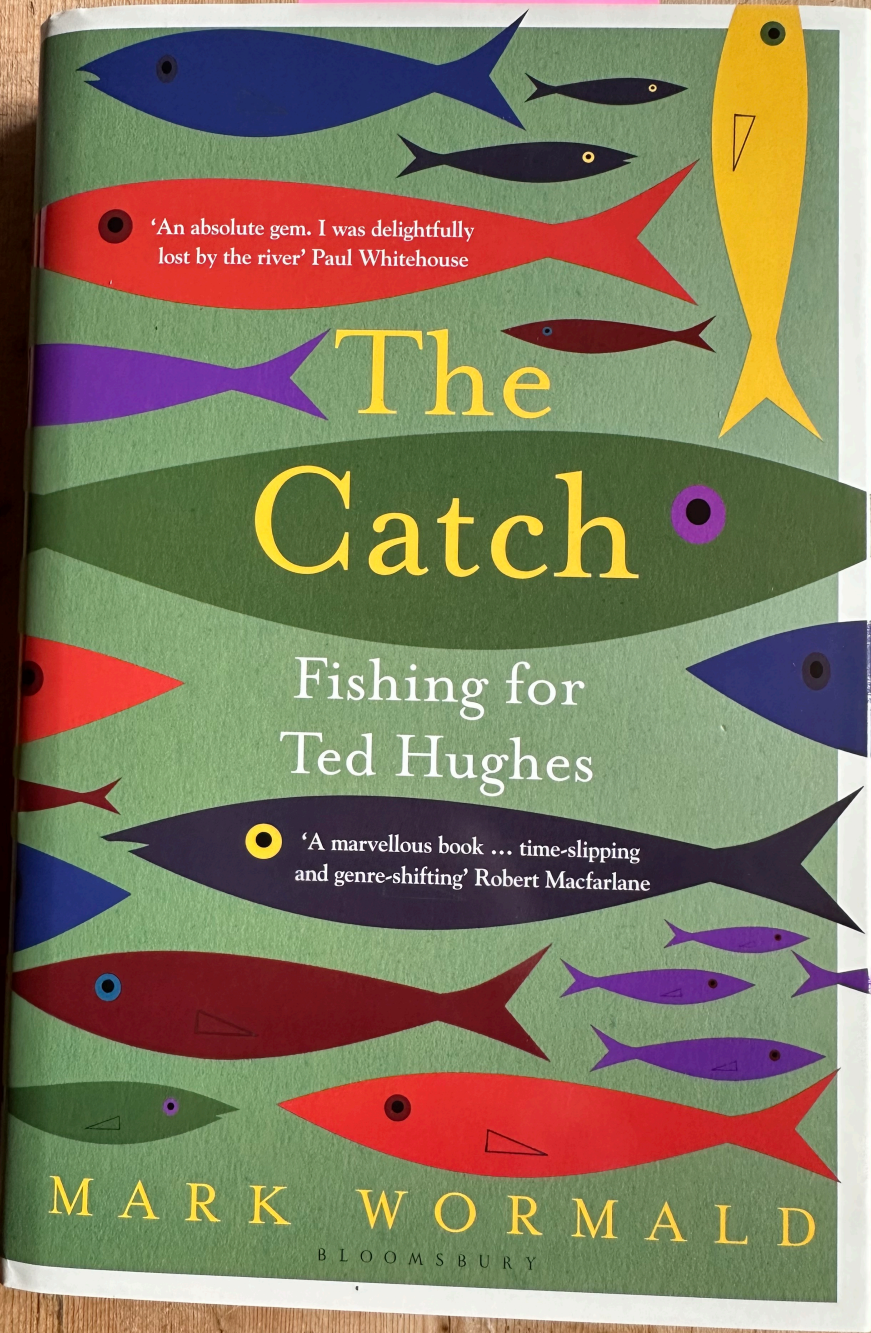

I moved along to  
opposite Lodge. A Sunb line  
with P. Ross, red and gold.  
Soon took a fine Rainbow  
Very good fight.  $1\frac{1}{2}$  lb,  $14\frac{1}{2}$ ".

20<sup>th</sup> April 1977

BAPTON FISHERY, RIVER WYLYE,  
WILTSHIRE.

WEDNESDAY 20<sup>TH</sup> APRIL 1977

Evening 5-8pm very overcast  
cloudy few fly on the  
water and consequently not  
much movement of fish. I  
didn't even rise a fish let  
alone catch one.

I'd be smiling....

This is a photo of Jack Tizzard with a 46lb 8oz Spring Salmon. Caught using a heavy 8' split can rod and centrepin reel. Tizzard, was a prolific Salmon angler who enjoyed great success throughout [The Hampshire Avon](#) during the 1960's and 1970's.
